15th CEMENT EXPO 2025

Driving Sustainability Through Technology

12th & 13th November 2025 | Yashobhoomi, Delhi

Colocated with

ABOUT CEMENT INDUSTRY

- INDIA'S CEMENT INDUSTRY, the second largest in the world.
- The industry will add 80-100 million tonnes (mt) of capacity by 2024-25 (FY25).
- Input costs which have hurt the bottomlines are beginning to cool down.
- The biggest innovation efforts are directed towards decarbonisation and logistics.
- Procurement will undergo some shift and so will logistics.

ABOUT EVENT

- The **15th Cement EXPO** on **12th & 13th November 2025** | **Yashobhoomi, Delhi**, India
- Co-located with the 11th Indian Cement Review Conference the event will address the cement industry's ambitions to deliver sustainable, low-carbon cement.
- The event will also see the staging of the 9th Indian Cement Review Awards where fastest growing cement companies and industry stalwarts will be awarded.

CEO's | Plant Managers | Technology Heads | CIO's | Procurement Heads | Supply Chain Heads | Government Representatives | Associations | Owners | Consultants | Public Sector Procurement Department Heads | State Government boards | Industrial Estates | Trade Commissioners | International Procurement Agencies

WHY ATTEND- 11th INDIAN CEMENT REVIEW CONFERENCE

The 11th Indian Cement Review Conference offers practical insights to attending delegate to help them improve their business through knowledge exchange –

- Technical forums - learn from topic experts and see new technology in action
- Activities that respond to a member's specific needs such as: visits to recently built plants to see the latest ideas in plant layout and design; an energy audit by an expert team to help define how to improve energy efficiency at a particular plant
- Opportunities to witness new technologies and chance to get a hands-on demo
- Networking with industry stakeholders and other key decision makers that address key issues from sustainability to the impact of changes in construction practices
